

Office of the President

March 7, 2022

To the University Community,

Approval of the First Fully Online Program for the San Juan Campus

On February 25th of this year, the Board of Post-Secondary Institutions (JIP) of Puerto Rico approved the first fully online academic program for Albizu University in our San Juan Campus, the **Master of Science in Neuropsychology**.

We appreciate the support of the excellent work team that collaborated to achieve this innovative program offering. This working group included Dr. José Pons Madera, Dr. Julio Santana, Dr. Sonia Cepeda, Dr. Gretchen Seda, Dr. Mairim Vega, Deans Rosa Belviz and Carmen Rivera Laboy, Dr. Joselyn López, Héctor Suero, Yoel Velázquez and myself.

Distance education has become a means through which we can provide opportunities for access to quality education as we offer to people within and outside of Puerto Rico. The approval of this first distance program in Puerto Rico constitutes an extraordinary opportunity for the development and growth of Albizu, both at the national and international level.

Congratulations to all!

Cordially,

Berta Rios, PhD
Interim President
